

It's hard to believe that it has been a year since our first on farm sale, time does indeed fly. This will be our 12th annual sale and we welcome all past, present and future clients.

The climate gods, once again, threw us a curve ball with the season turning dry. Thank goodness it was nowhere near as bad as previous years but it makes us wonder if these seasons are becoming the norm.

This year will be the last year of bulls, for sale, out of our foundation sire, Cotswold Sydney S18. There are 3 of his off spring to be sold on sale day. With the purchase of Forest View Hawkesby, from the Clements family at Beef Expo last year, we hope we have another sire to help improve the genetics of our stud. The bulls catalogued this year are very even and if purchasers can't choose between 2 – buy them both!!

We believe we have one of the best bulls we have ever produced for sale this year - Lot 2 I26 Kia Toa Indiana. With EBV figures of +60 for 400 & 600 day and the chassis to go with it, we think he is the total package.

We have been quite delighted with the recent weaner sales with progeny from our bulls topping sales at Stratford, Raglan, Te Kuiti and up North. It is great that the farmers who have stuck with cows are finally getting good returns for their efforts. It is also, with a great deal of satisfaction, that we now see the Charolais breed at the forefront of the resurgence of beef prices.

All our bulls have been EBL & BVD tested clear and vaccinated however we do recommend that all bulls receive a BVD booster vaccination prior to mating.

We think we have a good line up of bulls for sale this year. They are genuine hill country bulls being fed only grass and haylage. We hope there is a bull here to suit your needs. Any problems, we are only a phone call away so please do not hesitate to get in touch.

EBV'S EXPLANATION

Estimated Breeding Values (EBV'S)

EBVs for the growth traits are calculated in kilograms. The EBV is the best estimate of an animals genetic merit for that trait.

Birth Weight EBV

This EBV gives an estimation of the animals breeding value for birth weight. The lower the EBV, the lower the birthweight.

200-Day Growth EBV

Estimation of the animals genetic merit for 200-day growth calculated independently of the maternal milk effect.

400-Day Weight EBV

This EBV gives us an estimation of the animals yearling weight potential.

600-Day Weight EBV

This EBV is an estimation of the animals genetic potential for growth to 600 days (18 months).

NZ Charolais Society EBV's National Average 2014			
BW	200 day	400 day	600 day
1.22	22.0	37.7	42.6

These are averages from the Colorado Estimates

CONDITIONS OF SALE

1. The auction will be conducted under the Conditions of Sale laid down by the Stock and Station Agents Association.
2. All bulls are guaranteed breeders. If there are any claims made against the bulls, they should be made in writing within 7 months of the sale and accompanied by a Veterinary Certificate. Should the Bull fail to breed to a satisfactory level this animal will either be replaced with an animal of comparable value or a credit given at the following sale. This does not include interest, expenses, costs and damages.
3. All Bulls are sold with a 2 season Foot Guarantee which guarantees they will be capable of natural service for a minimum of 2 seasons. This guarantee only covers faults due to poor conformation and does not cover obvious negligence on the part of the purchaser or faults due to injury or abscess. Any claims must be made in writing and accompany a Veterinary report within 14 months of sale. Remuneration will be made in the form of either a replacement animal or credit at the next years sale on a pro rata basis, to the amount of use received by the purchaser, with the Bull being returned to Kia Toa Charolais. This guarantee does not include interest, expenses, costs or damages.
4. Bulls are to be trucked for delivery by the purchaser as soon as possible after the sale. If required Bulls may be held at the Vendors properties for up to 10 days after sale at the Purchasers Risk.
5. Insurance is recommended as each lot shall be at the risk of the Purchaser at the fall of the hammer.
6. Any dispute shall be settled by an arbitrator appointed by the auctioneers.
7. Kia Toa cattle are fully recorded and transferable within NZ Charolais Cattle Society Inc.
8. All Bulls are TB Accredited.
9. The Sale will be conducted exclusive of GST.

10. **PURCHASING REBATE** - All intending purchasers are required to register at the sales office prior to the sale. A purchasing rebate of 6% will then be paid to non participating livestock companies and recognized independent livestock agents with approved credit facilities introducing and/or accompanying buyers to the sale. Arrangements must be made with the auctioneer at least 4 HOURS PRIOR TO THE SALE AND SETTLEMENT MADE ON THE BUYERS BEHALF WITHIN 14 DAYS.
11. Although all care has been taken to ensure accuracy of information contained in this catalogue, no responsibility is accepted for any error or omission that might be contained herein.
