

# TAIAROA & COTSWOLD CHAROLAIS

**Certified Charolais**

**21st Charolais Bull Sale  
Monday 18 May 2015 at 2 p.m.**

**Offering: 29 Polled & Horned  
Rising Two Year Old Bulls**

**Agents: PGG Wrightson**

Roger Keach — 0274 325 766

Ryan Dowling — 0274 347 239

## Purchasing Rebate

All intending purchasers are required to register at the office prior to the sale. A purchasing rebate of 6% will then be paid to non participating livestock companies and recognised independent livestock agents with approved credit facilities introducing and/or accompanying buyers to the sale. Arrangements must be made prior to the sale and settlement made on the purchaser's behalf within 14 days.  
**THERE IS NO EXCEPTION TO THIS RULE.**

A very warm welcome to our 21st annual bull sale. We would especially like to welcome our repeat buyers. Thankyou for coming, we do appreciate your support.

It has been one of the hardest season we have experienced, with a cold spring and then the drought.

A favourable autumn has alleviated some of the pressure and we have had good growth following the rains.

In spite of the season, our bull weights are up by 35 kg compared with last year.

As usual we are concentrating on temperament, production and we are confident along with Don, that these cattle will shift anywhere in New Zealand. Charolais cross calves continue to dominate at the weaner calf sales, our congratulations to all the vendors.

Current weights and average daily gains will be available on sale day.

The sale bulls will be yarded ready for inspection from 12.30 p.m. and a light luncheon will be available.

We trust you will have a pleasant afternoon at Paerau and invite you to enjoy our hospitality at the conclusion of the sale.

We would like to know how our bulls are performing so please keep in touch and give us any feedback that you may have whether positive or negative.

Drew, Carolyn & Don.

Last year Carl Alsweiler, the Beef Marketing Manager from Alliance Group Ltd spoke at our Open Day and he has kindly provided us with a beef update to include in our catalogue.

### **Beef update 16 April 2015**

Climatic conditions have had a strong impact on this seasons NZ beef kill with South island kill ahead up 26.5% year on year as at 11 April and ahead 5.7% in the North Island.

Australian kills have also been very strong due to a continuation of drought conditions in some states, with the net effect of NZ/AUS product coming to market earlier than usual and markets under some pressure to absorb current stock flows.

Longer term kill predictions are for Australian and USA kills to fall year on year leading to an expectation that manufacturing beef supplies may be in short supply for the last quarter of 2015.

Other major issues that have impacted on the years activities – the USA waterside strikes (now resolved) resulting in on the wharf stock build up which is slowly clearing and the decision of the Indonesian government to severely restrict import volumes of NZ/AUS beef.

### **Market summaries**

*USA* –grain prices are low and strong domestic kills, but prediction of lower overall kill 2015 and improving kill from 2016. USA domestic cattle prices trading at very high levels with import prices under recent pressure due to high volume offering particularly AUS beef. Chicken and Pork are being promoted at very low prices and fast food chains are diverting more programs to these proteins.

The main BBQ season is about to start which should assist with stronger demand.

*Japan*- Depressed and aging economy with Australian FTA now in full swing giving them a 10% duty advantage over NZ beef

*South Korea*- once a strong vibrant market for NZ beef now under immense pressure due to slow economy with both USA and AUS also have the edge on FTA agreements giving a duty advantage over NZ

*Russia*- Providing opportunity for some lower value items but suffering from a soft currency.

*Europe*- Price levels under recent pressure as importers grapple with a very weak Euro currency- prices appear to have bottomed out.

*Indonesia*- Government restrictions on import quota allocation has limited the flow of most NZ/AUS product into Indonesia as the Govt pushes self-sufficiency for beef production. They have taken this path before and failed - watch this space.

*Australia*- Limited NZ to AUS export opportunity with a vastly weaker AUD and large domestic kills

*China*- remains a shining light with good demand for all prime cut categories but limited manufacturing demand. Despite a weaker economy the demand for imported beef remains strong

*Other markets* – mainly steady, with reasonable chilled volumes holding.

*Carl Alsweiler*

Marketing Manager Beef & General Products.  
Alliance Group Ltd

## **Conditions of Sale.**

- This sale will be conducted under the conditions of the New Zealand Stock and Station Agent Association.
- Each lot will be at the risk of the purchaser as from the fall of the hammer. No error, omission or misdescription will in any form invalidate the sale.
- The herd status is C10
- Free delivery in the South Island and to Feilding in the North Island
- The vendor reserved the right to change the order of the catalogue.
- All bulls have passed a veterinary examination of genitalia and semen evaluation prior to sale.  
These bulls were blood tested negative for the BVD antigen (carrier/PI status). They have received two vaccinations (sensitiser and booster) of Bovillus BVD vaccine one month apart, prior to sale. David R.H. Robertson BSc BVSc, Veterinary Centre.
- Any proven infertility will result in the buyer choosing a replacement animal or a refund, at the vendor's discretion.
- This sale is conducted on a working farm, so please exercise care to ensure your personal safety.

## **Estimated Breeding Values E.B.V.**

EBV's are an estimate of the true breeding value of an individual as a parent. Performance data and pedigree information from all animals in a database are used (along with trait heritabilities and genetic correlations) to calculate EBV.

## **Accuracy**

Accuracy is presented with each EBV and gives an indication of the amount of information used. The higher the accuracy the more likely a bull will breed true to its EBV.

## **Using the E.B.V.**

As we do not weigh the animals at birth, a birth EBV is the result of known information from their relatives.

## **200 Day Milk E.B.V.**

This EBV is important for breeding replacement heifers with superior milking ability.

## **200 Day Growth E.B.V.**

This is calculated independently for the maternal milk effect. If you sell weaner calves this is an important EBV

## **400 & 600 Day Weight E.B.V.**

These give estimation of the animal's yearling weight potential and beyond.

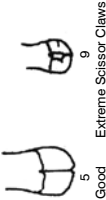

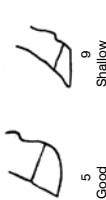

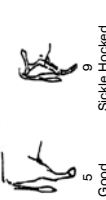

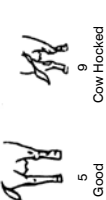

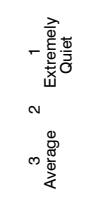

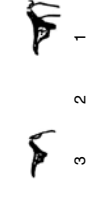

## How to use the Beef Class System

- We have tried to keep the system simple and easy to use.
- Basically, all structural traits presented in this catalogue are presented in the same format.
- A Score of 5 is ideal.
- 4 and 6 show slight variation from ideal but this includes most animals.

**NOTE:** Structure scores should be used as a *guide only, not a guarantee.*

Any animal scoring 4 and 6 would be acceptable in any breeding program.

- 1 and 9 should not be catalogued and are considered culls.
- 3 and 7 shows great variation, but would be acceptable in most commercial breeding programs, but seed stock produces should be wary
- 2 and 8 are low scoring animals and should be looked at closely before purchasing.

Description	Trait	Scoring Range
1 - open divergent; 5 - good; 9 - extreme scissor claw 1 - open divergent; 5 - good; 9 - extreme scissor claw	<b>Front Feet Claw Set</b> <b>Rear Feet Claw Set</b>	
1 - steep (stubbed toe); 5 - good; 9 - shallow heel 1 - steep (stubbed toe); 5 - good; 9 - shallow heel	<b>Front Feet Angle</b> <b>Rear Feet Angle</b>	
1 - straight (post legged); 5 - good; 9 - sickle hocked	<b>Rear Legs Side View</b>	
1 - bow legged; 5 - good; 9 - cow hocked	<b>Rear Legs Hind View</b>	
1 - lacking capacity; 5 - large volume	<b>Capacity</b>	
1 extremely quiet; 5 - aggressive/extremely agitated in crush	<b>Temperament (Docility)</b> <b>Crush or yard score</b>	
1 - extremely pendulous; 5 - extremely clean/tight to body	<b>Sheath and Navel score</b>
